

# Greener Transportation Our LNG Project

500

Number of full LNG trucks ordered  
 i.e. 1/3 of our fleet  
 (200 trucks already delivered)

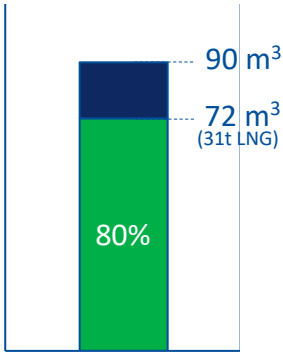

90 m<sup>3</sup>

Gross tank capacity  
 of our LNG station

5,000 LNG trucks in Europe

500 Jost LNG trucks

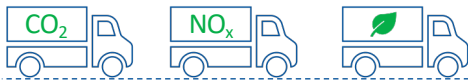

NET CAPACITY

110,000 km

Average number of kilometers driven per full LNG truck per year

400 kg

Tank capacity of a full LNG truck

Reduction of: noise, CO<sub>2</sub> emissions, NO<sub>x</sub> and fine particles

## LNG Station in Herstal

Expected daily consumption of 17t  
 80% of Jost Group's daily consumption in LNG (21t)  
 Station with 4 dispensers  
 Cold LNG (-160°) 2 bars & saturated LNG (-135°) with 6 to 8 bars  
 "On the fly" saturation system: ability to deliver saturated and unsaturated LNG at the same time

Europe's largest LNG station to date
